

BRAD EGGINS

WEB DEVELOPER
(STUDENT)

/ ALL ABOUT ME

I have enjoyed a successful career as a Pilot for the last 15 years. Having been forced to reevaluate my career, my objective now is to secure my first role as a Junior Developer.

I realise I have a lot to learn however I have an excellent work ethic and I am a fast learner. I have quickly progressed from next to zero coding experience to creating my own Full Stack Applications.

I have excellent problem solving skills and communication.

/ SKILLS

 Node.JS

 Python

   Javascript/HTML/CSS

 Bootstrap

 GIT

 SQL
